

Baltimore FAAS Team presents:

Airplane Maintenance for Pilots

Aviation maintenance deficiencies are best discovered on the ground. Once airborne even a minor problem can pose a significant hazard. At this seminar we will review the requirements for maintaining aircraft per Title 14 of the Code of Federal Regulations (14 CFR). This includes case studies, systems review, and an opportunity to see, touch, and discuss preventive maintenance procedures, as allowed by 14 CFR Part 43 Appendix A. Airplanes will be available with selected panels removed for discussion. Don't miss this exclusive event. Click on the link below and register TODAY.

Directions: From Wilmington, DE take I-95 South to Exit 89 MD-155 West Churchville. Proceed 2 miles and turn left onto MD-156 Aldino Road.
From Baltimore, MD take I-95 North to Exit 85 MD-22 West Churchville. Proceed 1.5 miles and turn right onto Carsins Run Road. Proceed .5 miles and turn left onto Aldino Road.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
